Technology

The following is an example of what can be made using one of Rhonda's panels. This wallhanging was made by Janet Parker. It has Rhonda's "Henry the Goat" panel in the center. The black and white fabric came from Kenya. The other colorful fabrics came from her stash. She wrote: "I wanted to share pictures of my completed Henry the Goat wall hanging. I embroidered through all the thicknesses instead of quilting it. The fabric around the panel was purchased in Kenya, where Rhonda spent some years as a child. Thank you, Rhonda for the panel. " Enjoy!
